

Senario:

You are a young teacher who was up late grading and doesnt have any time to get to the polls. You heard about the voter app circling the market and figured you would give it a try

Tasks:

1. Go to the voter tab and read about who is running
2. Go to the community tab and join a community
3. Go to the settings tab and change into dark mode

Notes:

Changes

1. Make it so that the place to set up voter settings has a link in the voter tab
2. The blue and read imply the two party system and might offend some people
3. Give little descriptions of the sections below their titles
4. Too many sections and subsections

Things to keep

1. Easy to read and access pages
2. Screens aren't crowded or hectic
3. Simple and clean design
